

Women's Health Care Coordination Referral Form Plan of Safe Care

Texas Children's Health Plan provides Care Coordination services to help providers manage pregnant mothers with substance use disorder during and after pregnancy. The goal is to improve maternal and fetal health outcomes by implementing a Plan of Safe Care to members with substance use disorder. Upon referral, our service coordinator will attempt to reach the member. If the member accepts Service Coordination, a service plan is formulated. If the member accepts or declines services, the service coordinator will notify the referral source.
