New EVV Proprietary System Onboarding Documents Now Available

New documents about the Electronic Visit Verification (EVV) Proprietary System Onboarding Process are available on the [Texas Medicaid & Healthcare Partnership (TMHP) EVV Proprietary Systems](#) webpage.

The new documents provide an overview of the approval process that a program provider or financial management services agency (FMSA) must complete before using their own EVV proprietary system.

By April 1, program providers and FMSAs required to use EVV by the 21st Century Cures Act must select an EVV system and submit the appropriate forms to begin the onboarding process. [Click here for more information about the April 1 deadline](#).

Program providers and FMSAs can confirm if they are impacted by the Cures Act on pages 1-2 of the [Programs and Services Required to Use EVV](#) document.

For more information, contact evv@tmhp.com.
