

1. Where can I go to find out what drugs are covered and/or require pre-approval?

- Providers can review the list of medications by visiting txvendordrug.com. There is a tool to search medications by brand or generic name. The tool also identifies if a medication requires prior authorization requirements.
- Providers can also review the list of drugs from our PBM's website at <https://txstarchip.navitus.com/pages/epocrates.aspx>
- Providers can also contact Texas Children's Health Plan to speak to a pharmacist if you have any questions about your patient medications and benefits. Contact Member Services at 1-866-959-6555 (CHIP) or 1-866-959-2555 (STAR), or 1-800-659-5764 (STAR Kids) if you need help.

2. How can in-network pharmacies view or search the PBM's maximum allowable cost (MAC) list?

- Sign-in to the www.Navitus.com Pharmacy Portal using a pharmacy NPI and NCPDP, and choose the link for MAC Program from the list on the left. User must agree to the MAC Non-Disclosure Agreement terms using the link at the top of the page.
